

# What is J'Flex?

J'Flex by Yes Global® is a specialized health supplement designed to **support joint health and enhance mobility**. Formulated with powerful, research-backed ingredients like Turmeric, Boswellia, and Glucosamine Sulfate, J'Flex aims to **reduce inflammation, alleviate joint discomfort, and promote overall joint flexibility and strength**.

## Major Ingredients Glucosamine Sulphate

Glucosamine is a naturally occurring compound found in cartilage, the tissue that cushions joints. It plays a key role in maintaining joint health by supporting cartilage structure and promoting lubrication. Available in supplement form, glucosamine is often used to alleviate joint pain, reduce stiffness, and slow cartilage deterioration.

## A Universal Concern: Joint Health Problem

Joint health issues are a widespread concern, affecting people of all ages and lifestyles. Conditions like osteoarthritis (OA), the most common joint disorder, **impact approximately 7.6% of the global population (595 million people in 2020)**.

The burden of OA has more than doubled from **247.51 million cases in 1990 to 527.81 million in 2019**.

## Why choose J'Flex?

### Comprehensive Health Support

This premium joint health supplement is specially formulated to support flexibility, reduce joint discomfort, and promote the strength and resilience needed for active, pain-free movement.

### Backed By Rigorous Research

With science-backed ingredients, J'Flex helps maintain joint health for years to come, empowering you to stay mobile, active, and comfortable every day.

## Overall Benefits

Enhances Flexibility and Mobility

Enhances Skin and Gut Health

Improves Physical Performance

Promotes Joint and Muscle Health

Reduces Inflammation

Rich in Nutrients

## Feeling Limited?

Joint issues like pain, reduced mobility, or difficulty walking can limit your life and cause frustration. Conditions like osteoarthritis and rheumatoid arthritis are major causes of disability.

## Glucosamine is used for...

1

Manage Osteoarthritis

2

Support Cartilage Health

3

Relieve Joint Pain

4

Improve Mobility

5

Slow cartilage breakdown

# LIVE LIFE. UNSTOPPABLE.

Say goodbye to stiffness. Hello to freedom.
